

World Week for Animals in Laboratories

April 23 to April 30

Broken Promises

Nearly 2.5 million animals are killed every year in Canadian labs. It's funded by government, health organizations, businesses and public donations. According to the last statistics there is an increase of 16% from 2002 to 2003. Dogs and cats are seized from pounds. There has not been phase out of cruel, scientifically fallacious "animal models" even though reliable, non-animal humane methodologies are available. The vivisection multi-billion dollar industry polices themselves! Help stop this scientific fraud.

Contact your politicians and those who fund vivisection.
Send this Vivisection Poster to them. Get more info at:
